

The Slimline System

DIRECTIONS

Push Button Hooks

These hooks are for use with Slimline Stainless Steel Cable Hangers only.

Directions:

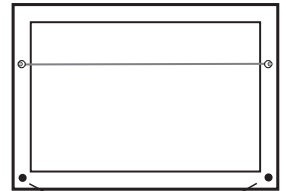

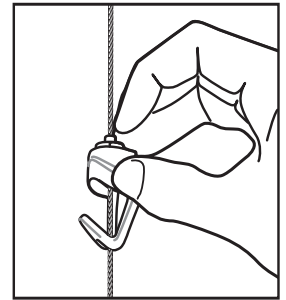

Fit the stainless steel cable into the top of the hook. To move the hook along the cable press the button on the top of the hook as shown. While the button is down the hook will move freely. The hook grips the cable when the button is released.

Recommended Weight:

14kg (30lbs) on one hook.

Foam Sticker Pads:

Stick one of these adhesive foam pads near the lower corners at the back of each frame. They help stabilise the frames and keep them straight. (20 pads included in each pack).

Foam Stickers
